

WHAT IS YOUR HNV INDEX NUMBER?

Farmer Joe
Cuara Royal Road
Cachipal

YOUR HNV INDEX NUMBER: 58

Summary of Scoring Points

Section	Context	Score
1	Farmer personal data	100%
2	Farm location	100%
3	Soil Characteristics	100%
4	Crops Grown (during the year)	100%
5	Local Pest and Disease Pressure	60%
6	Typical agronomic practices used on your farm	47%
7	Fertilizing Practices	12%
8	Managing Crop Growth	15%

What does your HNV Index Mean?

100 - 86	Your practices definitely have a strong Ecological bent. Continue to follow your practices and share them with others
65 - 85	You are definitely on the way to a strong Eco-Friendly farming practice. Strengthen your practices by examining the weak points.
45 - 64	There may be some lessons that you can learn from Nature itself. If you are interested in pursuing a more Eco-friendly farming practice, explore some of the alternatives
Below 45	There may be a few “chemical” uses that are causing your index to tank. You can definitely improve your performance by changing both your inputs and also your approach to crop production.
